

HECC PLAYGROUND

The first Whānau planting bee

Today we gathered to plant a selection of fruit trees and vines in the playground area to start building our HECC orchard. We achieved just that with a feijoa hedge, a selection of mandarins, grapes and passionfruit planted along the fencelines. This is the first step in the development of a natural environment where the children can discover and learn through their connections with nature. 28th April 2012

"If we want children to flourish, to become truly empowered, then let us allow them to love the earth before we ask them to save it."
Sobel
